

February 10, 1981

Chairman John Ailes, Board member Dr. Donald Brannon, and Karen Watson met with a few representatives of industry regarding the WQS (informally) that had been filed with the Legislative Rule Making Review Committee and heard concerns in a few areas that may be "problems" with meeting some parameters, etc.

It was suggested that any problem area be documented and sent to the Board by February 27, 1981, for their consideration when they met on March 3, 1981, and at that time, a decision would be made as to go to public hearing the same time as the NPDES regs. were to be commented on (April 6 & 7th).

The Division was to meet with Assistant Attorney General Karen Watson on February 13th, and at that time, they too, could present their views and also document for the Board's consideration any changes of significance by February 27th.
