CHARLESTON, WEST VIRGINIA 25305

August 25, 1981

Mr. John C. Ailes, Chairman  
Water Resources Board  
P. O. Box 520  
Romney, West Virginia 26757

Dear Mr. Ailes:

I am writing to formally notify you that you have been requested to appear at the next meeting of the Legislative Subcommittee on Coal Mining and Coal Mine Safety. The meeting has been scheduled for Tuesday, September 15, 1981, from 12:00 - 2:00 P.M. in the Senate Judiciary Committee Room No. 269. The Subcommittee has requested that you provide information regarding the new water quality regulations that have been promulgated by the Water Resources Board. Additionally you have been requested to make comparisons between the state regulations and the federal water quality regulations in order to indicate whether or not the new standards are in any way more stringent than the federal standards.

Please do not hesitate to contact me if you have any questions regarding this meeting or if you will have difficulty in being in attendance. You are welcome to bring along any co-worker or assistant in order to help you make your presentation.

Very truly yours,

*William M. Walls*
